1. Purpose of this Document

This document ensures that every visual created under Naari Led Vyapaar looks and feels like it belongs to the same movement.

Regardless of who designs it, every asset should communicate the same warmth, authenticity, and purpose.

Recognition builds trust.

Consistency builds recognition.

2. Brand Visual Philosophy

Our visuals should never feel corporate.

They should feel:

Human	Warm	Hopeful	Documentary-style
Founder-first	Community-driven	Honest	Aspirational

The founder should always be the focal point. The design should support the story, not overpower it.

3. Design Principles

Every design should follow five rules:

Human First	<i>Prioritize faces over products.</i>
------------------------	--

Story Before Sale	<i>Focus on the founder journey rather than selling.</i>
------------------------------	--

Simplicity	<i>Avoid clutter. One message per visual.</i>
-------------------	---

Authenticity	<i>Use genuine imagery whenever possible.</i>
---------------------	---

Consistency	<i>Every asset should be instantly recognizable as Naari Led Vyapaar.</i>
--------------------	---

4. Campaign Colour Psychology

	Deep Maroon — Primary	<i>Represents courage, resilience, and heritage.</i>
	Warm Mustard — Secondary	<i>Represents growth, optimism, and energy.</i>
	Cream / Off-white — Neutral	<i>Represents simplicity and accessibility.</i>
	Forest Green — Accent	<i>Represents sustainability, progress, and entrepreneurship.</i>

Usage Rule

- 70% neutral — Maintain visual calmness.
- 20% primary
- 10% accent

5. Typography Guidelines

- ◆ Headlines should feel bold and confident.
- ◆ Body copy should remain clean and highly readable.
- ◆ Avoid decorative fonts.

- Excessive branding

7. Video Style

20. Brand Consistency Checklist

Before publishing any asset, confirm:

✓ Is the founder the hero?
✓ Does it reflect warmth and authenticity?
✓ Does it strengthen trust?
✓ Is the message clear?
✓ Is there a meaningful call to action?
✓ Does it align with the movement's values?
✓ Would someone recognize this as Naari Led Vyapaar without reading the logo?

If the answer to any question is "No," revise the asset before publishing.

21. Signature Design Philosophy

Every post should make someone feel one of these emotions:

"I relate to her."

"I admire her."

"I want to support her."

"I know someone who should apply."

"I want to be part of this movement."

If an asset creates one of these responses, it has fulfilled its purpose.

22. The Golden Design Rule & Final Brand Principle

The Golden Design Rule

***Design should never compete with the founder's story.
Its job is to make the story impossible to ignore.***

Final Brand Principle

People may forget a post.

People may forget a reel.

People may forget a statistic.

But they will remember how a founder's story made them feel.

That feeling is the true visual identity of Naari Led Vyapaar.
