1. Purpose

The purpose of this document is to ensure that every piece of content created under Naari Led Vyapaar is emotionally engaging, founder-first, and aligned with the mission of The Legit Talks.

<i>Our content should not simply attract views.</i>
<i>It should build trust, inspire action, and create belonging.</i>

2. The Golden Rule of Content

People don't stop for businesses. People stop for stories.

Every piece of content should answer one question:

“Why should someone care about this founder?”

3. The 5-Second Rule

A viewer decides within five seconds whether to continue watching.

Every content piece must create:

- ◆ Curiosity

At least one of these:

- ◆ Inspire someone.

- ◆ Build trust.
- ◆ Strengthen community.

If it achieves none of these, rethink the content.

Before publishing, ask:

- ◆ Would someone stop scrolling?
- ◆ Would someone feel something?
- ◆ Would someone remember the founder?
- ◆ Would someone want to support her?
- ◆ Would someone want to join this movement?

If the answer is yes, the content is ready.

22. The Content Manifesto

We do not create content to chase algorithms.

We create content to amplify courage.

We believe every founder carries a story capable of changing someone's perspective.

Every reel is a doorway.

Every caption is an invitation.

Every feature is a reminder that extraordinary stories often belong to ordinary people.

Our responsibility is not simply to make content.

Our responsibility is to make sure that no woman who chooses to build feels invisible.

23. The Creative Oath

*We will tell stories with honesty.
We will create with empathy.
We will market with purpose.
We will celebrate without comparison.
We will build trust before attention.
And we will always remember that behind every business is a human
being whose courage deserves to be seen.*

24. Creative Motto

Stories create trust.

Trust creates community.

Community creates change.

Change creates legacy.
